

On Tuesday 5th December, your child is scheduled to conduct a practical sports session for their peers as part of task 4, component 2 in their BTEC Sport qualification. To support this process, students are required to attend a drop-down day in the Sports Hall during periods 3-5. They need to be prepared to deliver their session for 15-20 minutes. This practical experience is an important part of their qualification and will help them develop their skills in sports leadership and coaching. This session accounts for a small part of their overall GCSE, so its importance is paramount.
