

Home Learning Strategy Update 26

Aims :

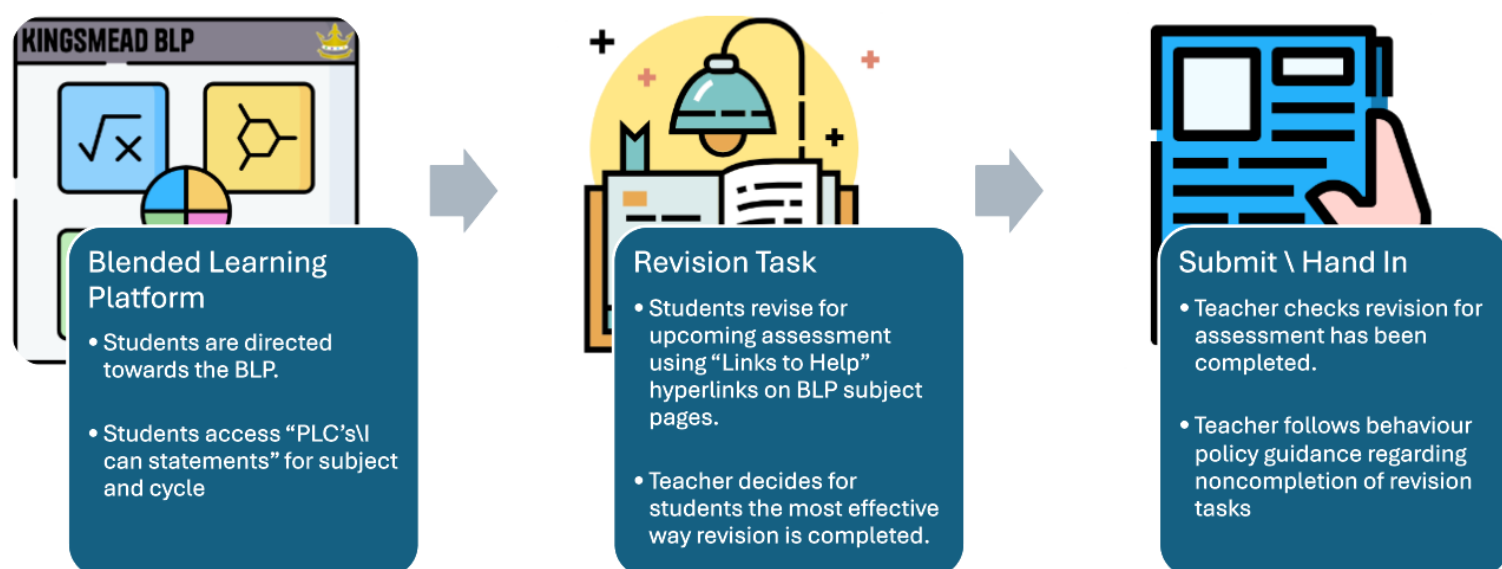

- Ensure home learning has a clear learning purpose rather than simply filling time
- A fairer distribution of homework across all subject areas
- Provide students with access to high-quality learning resources for use in school and at home
- Ensure home learning complements assessment points and supports the closing of gaps
- Enable pupils who are absent to stay connected to their learning
- Foster greater student independence and ownership of learning
- Reduce unnecessary workload while increasing the impact of learning outside the classroom

Home Learning:

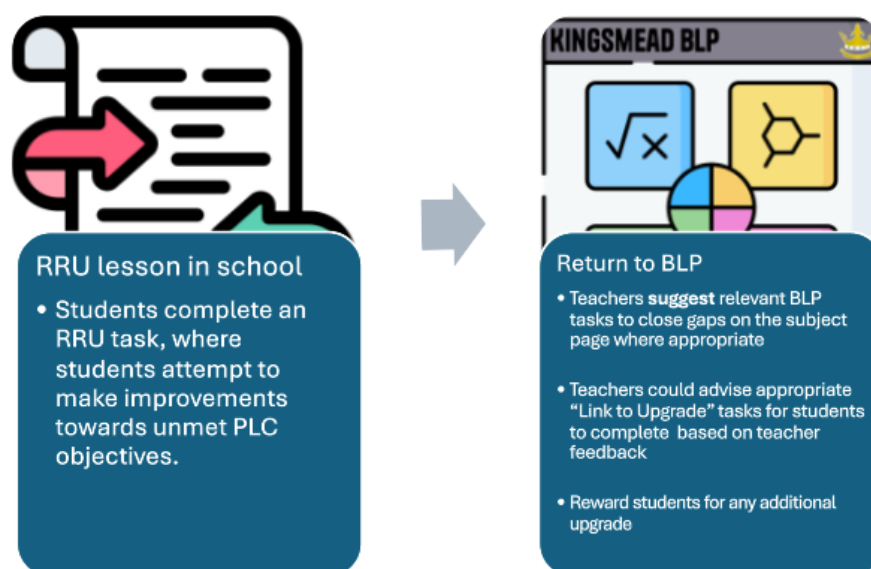

All home learning will be recorded on Satchel:one and be set for completion at least 3 days after it has been set.

For all key stages, home learning will be based around the use of the Blended Learning Platform.

Prior to assessments students will be asked to complete revision and submit this to their teacher.

Following assessment feedback, students may then be suggested closing the gap activities on the Blended Learning Platform to complete for XP.

Our expectation at Sixth Form is that every hour in the classroom per week should be matched with another hour in study time. This equates to 9 hours a fortnight.

Sanctions and Rewards for Home learning

The completion of revision HL is expected of all students. Where pupils complete outstanding home learning this should be rewarded by issuing XP. Where there is evidence pupils have not completed home learning the following sanction system should be applied:

1. If pupils do not complete the set work by the submission date, a HL infringement point is logged on Bromcom and communicated instantly to parents.
2. Staff issue a 24hour extension.
3. If pupils fail to submit their HL the following day a HL Detention should be issued by the teacher.
4. Staff will be reminded of the Detention 24 hours before pupils complete the sanction and should arrive at the start of detention ready to complete the restorative conversation and to direct pupils to the work they need to complete.

Any students who complete any additional close the gap home learning should be rewarded with XP.
